Work Experience

FrontEnd developer at ICT academy

Feb 2022

Part-time

Projects

IMDb movies

<https://movies-site-reactjs.netlify.app/>

Another beautiful site which was build with React JS. It says about all kind of films. This project is interactive and with beautiful UI. Click the url and see by yourself...

Crud site

<https://crud-exsite.netlify.app/>

This is the CRUD site which developed fully with React JS and it's libraries

BooksShelter app

<https://google-bookssite.netlify.app/>

This is fully interactive and beautiful designed site for book library.

Movies site

<https://netflix-moviesite.netlify.app/>

This is one of my beautiful and fully interactive site about films. This site is organized with Javascript

Asaxiy clone

<https://asaxiy-js.netlify.app/>

This is the clone of the asaxiy.uz site.

ToDo site

<https://mytodos-site.netlify.app/>

This is a ToDo site with full interactions such as editing, deleting, updating and so on.

Shopping site

<https://shoppingsite-online.netlify.app>

This is one of my favorite sites. It is a shopping site which is build using React JS

About Me

I am a passionate and dedicated front-end developer with a strong background in software engineering. Currently, I am pursuing my bachelor's degree in Software Engineering at TUIT, where I have maintained an impressive GPA of 4.12 out of 5.

In addition to my academic achievements, I have also acquired valuable certifications such as Professional Front End Developer from Coursera. These certifications have equipped me with the necessary skills to excel in the field.

I have gained practical experience as a FrontEnd Developer at ICT Academy, where I am currently employed part-time. This opportunity has allowed me to apply my knowledge of languages such as JavaScript, React JS, Redux Toolkit, Sass, Bootstrap, Tailwind CSS, HTML, and CSS in real-world projects.

With my strong technical skills and passion for front-end development, I am confident in my ability to contribute effectively to any team or project. My proficiency in languages like English (B2 level), Russian (A1 level), and German (A1 level) enables me to collaborate seamlessly with diverse teams.

Additionally, I am learning Back-End development in Najot Ta'lim.

I am eager to leverage my skills and experience to create exceptional user experiences through innovative front-end solutions.

BTSERVICE

https://btsservice.netlify.app/

This site is for fixing home appliances and sell them. In these days, I am working on this project and developing it's dash-board and so on. In this project, I have used nearly all of React JS features and most used libraries such as react-toastify, react-leaflet(for implementing map), redux-toolkit , RTK query and Material UI and so on.

Education

Najot Ta'lim

- FullStack developer course Certification 2022

TUIT

- Software engineering Bachelor's degree 2022
GPA: 4.12/5
